

The field of radiology  
is making everything about  
medicine more precise.

**Including our name.**

**MedXray. Knowledge From The Inside Out.** After nearly fifty years of service to the region, **Medical X-Ray Center is becoming MedXray.** This new, streamlined name embodies the progressive nature of radiology as the field advances toward an exciting future. With all of the enhanced technology, diagnostic capabilities and treatment options available within radiology, it's more important than ever that the people performing these procedures are board certified specialists.

At MedXray, our radiologists specialize in neuroradiology, pediatric radiology, diagnostic radiology, radiation oncology and interventional radiology. Our physicians are board certified, and most have fellowship training. All of them play a valuable role as consulting physicians. It's always been our job to know radiology from the inside out.

*And it always will be.*
